0900 - 1500	<p>SIG Workshops</p> <ul style="list-style-type: none"> • Tumour Immunology The Tumour Immunology Workshop will cover all aspects of tumour immunity and different approaches to therapy. The workshop will have sessions about the tumour immune microenvironment, innate immunity and cancer, cellular therapies and clinical translation. • Infection and Immunity The Infection and Immunity Workshop will feature presentations by renowned immunologists Fiona Powrie and Paul Klenerman and a session focussed on <i>Parasitic, Tropical and Emerging Diseases</i>. A large proportion of the Workshop will be dedicated to oral presentations selected from submitted abstracts. This is a great opportunity to discuss your research in a relaxed and friendly environment. • Clinical Immunology The Clinical Immunology SIG will provide Scientists and Clinicians with the latest updates in the field of translational Clinical Immunology. The workshop is the first of its kind at an ASI meeting and is to enable closer collaborations between scientists and clinicians in the field of Clinical Immunology, Autoimmunity and Immunodeficiency. • Post-Graduate Student The Postgraduate Workshop will include a number of sessions focused on essential research skills. These include sessions on introductory immunology, journal reviewing and publishing, grant and fellowship applications, career planning and presenting skills.
